**Guide for the export of
vehicles**

in containers or roll-on roll-off

MARINE TRANSPORT

GUIDE FOR PRIVATE USERS

We are pleased to inform you that our company has obtained **AEO certification (Authorised Economic Operator)**; this allows customs simplification and favours safety and security.

Our constant concern is to serve you better; this new European status will strengthen the quality and control of our transport and/or customs clearance operations for your account.

In order to best prepare your shipment we need to remind you of the administrative, customs and regulatory formalities. With this in mind you will find below a guide for the export of vehicles, together with forms that you should complete and sign before returning them to us.

Please note that this information is necessary to ensure the proper operation and the quality of our services.

DOCUMENTS TO BE PROVIDED:

- Photocopy of your identity document;
- Original of the registration document
- Detailed inventory with values of the objects to be shipped (see attached appendix)
This document must be dated and signed by the shipper. Please fill in the “total” line.
- The vehicle delivery declaration (see attached appendix)
- If it is a used vehicle: declaration of its value (see attached appendix) and vehicle papers (registration document, certificate of conformity and technical inspection certificate with an expiry date less than one year ago) ;
Note: the Value declaration is mandatory (zero value is not accepted)
- If it is a new vehicle: vehicle invoice with origin and DRIRE acceptance certificate;
- Mandatory non-pledge certificate for used vehicles (to be downloaded from the website of your county licensing office)
- L.O.I declaration which must be filled in to avoid additional taxes (see attached appendix)
Note: for container loading fuel tanks must be emptied and batteries disconnected. As a precautionary measure, please deliver your vehicle with a minimum of fuel (reserve supply).

IN CASE OF PURCHASE/SALE:

- Photocopy of the shipper’s identity document;
- Declaration of sale signed and dated by the owner.
- Certificate of transfer in the name of the person (purchaser at the destination) appearing on the registration document. If the registration document has remained in the name of a previous owner, it will be necessary to provide as many certificates of transfer as there have been transactions.
- In the case of the sale of a used or new vehicle by a trader, a sales invoice carrying the valid EORI number of the trader is required

PERSONAL EFFECTS LOADED INSIDE VEHICLES ARE TOLERATED BY SHIPPING COMPANIES BUT THEY TRAVEL UNDER THE FULL RESPONSIBILITY OF THEIR OWNERS AND / OR OF THE PRINCIPAL AND MUST BE DECLARED

You should find out the specific regulations of the country into which vehicles are to be imported

We remind you that it is FORBIDDEN to:

- **Load the following items in vehicles:**
 - Television sets
 - Refrigerators and freezers
 - Unserviceable electrical appliances
 - Spare parts containing toxic gases, CFC, oil residue or waste containing oil, engines, worn out batteries, old vehicle parts in poor condition, unserviceable for their initial intended use.
 - Out-of-date medication
 - Domestic waste
 - Flammable and/or dangerous waste
 - Worn out tyres

- **Dispatch unserviceable or damaged vehicles**

THE AUTHORISED GROSS TRAIN WEIGHT MUST BE LESS THAN THAT SHOWN ON THE REGISTRATION DOCUMENT

GOODS LOADED MUST BE IN GOOD CONDITION, IN WORKING ORDER AND PROPERLY PACKED
